

bringing visions to life

Dear Clients and Friends:

The health and safety of our clients and team members has always been our utmost priority. As we process the ever-changing information of the COVID-19 virus, we want to assure you that we are taking strong measures to safeguard our operations and systems to best protect you. We are following guidance by health authorities, including the Centers for Disease Control and Prevention and the county and state health departments, for stringent sanitation practices and social distancing. As you know, our work is exclusively done outside homes and businesses.

This week, the State of Illinois deemed lawn care and landscaping as essential businesses. What that means to you is that our business will continue as usual and you will see our trucks out and about starting our spring clean-ups.

We would like you to know that we are partners with you, and we are all in this together. We have put the following protocols in place to keep everyone as safe as possible:

- Social distancing: No more than one driver and one passenger per truck during the coming weeks.
- Sanitization: Each team member will be wearing protective gloves and will sanitize their equipment and the truck cabs regularly.
- Any team member that does not feel well or has any symptoms of illness has been instructed to stay home and not report to work.
- 

As it's been said often over the past week or so, this is uncharted territory for all of us. What has not changed is the connection that we have with our clients, and the connections that they have with their homes and natural surroundings. We are here to help you make your outdoor spaces beautiful, healthy and calming. Spring is upon us, and in that, there is something to look forward to and enjoy.

Be well, and feel free to reach out to us with any questions, any time.

Bob Bertog
